

A person wearing a black short-sleeved shirt with white piping on the sleeves and blue jeans is applying a clear, glossy wrap film to the side of a black car. The person is wearing a black watch on their left wrist and a black bracelet on their right wrist. The car's surface is highly reflective, showing the person's hands and the surrounding environment. The background is a plain, light-colored wall.

Knowledge and support.

Express your creativity and
bring your vision to life with
durable, high-quality
3M™ Wrap Film Series 2080.

It's backed by 3M technical

Lead the way.

You've always been one to make the bold choice. Align yourself with a leader. We're reinventing 3M™ Wrap Film with features that will leave your competition in the dust.

A protective film layer on gloss colours

Stays on during installation, then is removed quickly, easily and cleanly after install to help reduce surface impressions and scratches.

Unique, conformable film layers

Helps to provide a better fit around curves and in channels for easier installation and a sleek appearance.

An improved warranty

Give your customers confidence with up to seven years of protection on vertical applications.*
