### 3M™ Perforated Window Graphic Film 8170-P40

Ideal for high-profile longer term messaging, 3M's perforated film can turn your windows and glass doors into valuable advertising space. Compared to calendered vinyl film, this high-performance cast vinyl film offers better conformability and excellent lifting resistance yet is easy to handle and remove. Plus, the durability of this film is backed by the industry-leading 3M™ MCS™ Warranty and 3M Performance Guarantee. So you can build your brand with lasting, eye-catching graphics that won't block your view.

Meet your new go-to film at  
[3M.com/windowwraps](https://www.3m.com/windowwraps).

This product is 60% film with 40% perforation and features 3M™ Scotchcal™ Optically Clear Overlaminate 8914 that provides true optical clarity for graphics.
