3M™ Window Graphic Film 8170-P40

For Lasting Window Impressions

NEW Cast Vinyl Perforated Film

Film 8170-P40 offers all the benefits of a high-performance cast vinyl film plus versatility for cross-platform printing. It's the window film you can count on for long-term brand marketing.

Easy handling, great lifting resistance

As the only cast vinyl perforated film on the market, it provides better lifting resistance than calendared vinyl films, but maintains the easy handling feel for installation and removal. It also lays flat during printing.

Rich image quality

The 40% perforation pattern increases first surface image quality with slightly reduced viewing through the second surface. Ideal for high-profile messaging on storefront windows.

Durability for peace of mind

This premium film is backed by the industry-leading 3M™ MCS™ Warranty and 3M Performance Guarantee.
