HP Latex cutting solutions

Grow your business by enhancing your HP Latex printer with our unique print AND cut workflow[1]

HP Latex 54 Cutter

HP Latex 64 Cutter

HP FlexiPRINT and CUT RIP

The HP solution—best in its class[2]

- Cut full bleed stickers that don't shrink or curl when printed with HP Latex Technology

- Enjoy accurate high-speed cutting and cut throughs; LAN connectivity and HP media basket add convenience

- Optimized workflow management from a single point—includes unique software with barcode integration

- Design applications in 3 simple steps—no design skills are needed with HP Signage Suite in box[3]

True print AND cut

- Print AND cut at the same time—versus print OR cut with solvent—with HP's reliable, dual-device solution

- Cut right away when printing with HP Latex Technology—with no degas time, you can deliver same day

- Quickly deliver short-term print and cut jobs, with no need to laminate scratch-resistant HP Latex prints[4]

Easy, reliable workflow

- Print and cut in 5 simple steps—add cut lines from the RIP, predefined cutting presets, easy user interface

- Efficient job recognition and reliable, error-free cutting—Optical Positioning System and HP Barcode

- Avoid the complexity of other dual devices with a cutting solution designed for your HP Latex printer[1]

[1] The HP FlexiPRINT and CUT RIP is designed for the HP Latex 300 and100 series printers. For compatibility with other HP Latex printers, a RIP upgrade is required.

[2] Based on productivity and environmental advantages compared to the leading (per IDC market share numbers, March 2017) and comparably priced solvent-technology-based integrated print and cut solution. HP internal productivity testing performed February 2017. The HP Latex Print and Cut Solution also uses HP Latex inks that meet UL ECOLOGO® Certification to UL 2801, demonstrating that an ink meets a range of multi-attribute, lifecycle based criteria related to human health and environmental considerations (see ul.com/EL).

[3] Requires an HP Applications Center account, Internet connection, and connected Internet-capable device. For more information, see http://www.hpapplicationscenter.com.

[4] You can consider unlaminated use for short-term signage with scratch resistance comparable to hard-solvent inks on self-adhesive vinyl and PVC banner. Scratch-resistance comparison based on testing third generation HP Latex Inks and representative hard-solvent inks. Estimates by HP Image Permanence Lab on a range of media.
