

The Apex1R is the ultimate choice for quality, performance, and value-seeking end-users

As technology continues to advance at a rapid pace, it is crucial to invest in equipment that can adapt and scale to meet the changing needs of your business.

The Apex 1R CNC Router is designed with smaller production facilities in mind, offering the same precise cutting and seamless motion that you would expect from any of MultiCam's routing systems.

Linear ATC

Automatic Tool Changer
The Apex 1R with ATC spindle offers a linear rack for spindle tool holder pick up. Automatic spindle tool pick up rack is a high value yet low cost option.

MultiVision

Dynamic Digital Registration
MultiVision provides additional flexibility by visually recognizing media registration marks and automatically compensating for skew and image drift.
