

Briteline Holographic Rainbow Film

briteline.com

Briteline Holographic Rainbow Film is 6mil thick and laminated to a 90lbs layflat liner making it very dimensionally stable when printing with solvent, latex, UV, or screen printers. The permanent acrylic adhesive is clear making it possible to construct a double-sided holographic window decal or sticker if paired with another mirror image print on a transparent film (IM3205R-54).

Applications

Interior and short-term exterior decals. Briteline Holographic Rainbow film has 99% opacity, making it possible to produce double sided window decals.
