**Wingspan Series**

WS-6600

Slides into our HLED-EXTRUSION or any ¼" C-Channel or Divider Bar

Or screw into any square tube or extrusion of your choice.

Spread Your Wings. Enjoy the FREEDOM!
Wingspan 6600

One Size Fits All!

Custom projects come with custom challenges. Which is why you need the 1 product that does it all. Because you only need **21 modules** to illuminate a **5'x10'x12" cabinet**, you can customize your experience. Whether you are fabricating hundreds of the same cabinet or building something custom, experience true FREEDOM with the High Efficiency Double Sided Wingspan 6600.

Load: 75.6
Modules: 21
Watts: 113.4 of 150.0
PS: HanleyLED 150w 24v

12" DEEP CABINET WITH 18" ROW SPACING

Customize your labor with the most versatile module for cabinet lighting. Maximize spacing for the least amount of labor ever, or customize spacing to work around internal structure and varying depths with our 175° Wingspan optics.
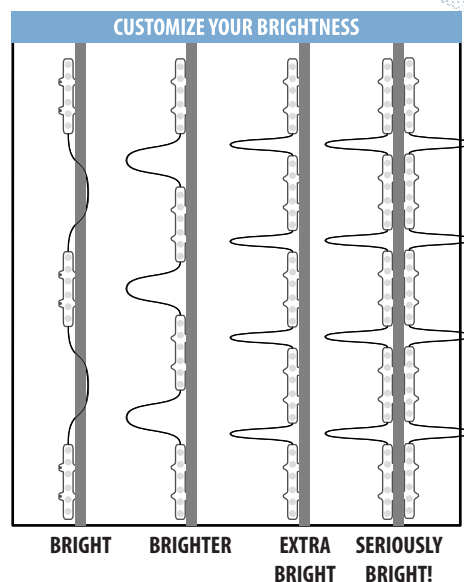

Customize your brightness with only 1 module every 2 feet. Space Wingspan 6600 further apart or closer together for custom brightness.

Customize your power by choosing as few or as many modules as you need.

Customize your depth by spacing WS6600 anywhere from 5" – 18" from the face

CUSTOMIZE YOUR BRIGHTNESS
